

WaveRider provides a full cashless laundry system solution with simple to install units, and easy to use web-based account management tools. The WaveCentral System can even notify service personnel, instantly, of any problems with a laundry machine.

Promotions such as a free wash and dry cycles, loyalty programs, and off-peak discounts can be performed quickly and easily via a secure web interface. The results are increased revenue and customer loyalty. Your customers can even find out, in advance, how many laundry machines are available by checking WaveVision, our innovative website designed to maximize customer convenience
